

Item no.: 366010

Airbrush spare part, needle, fine (professional)

from **13,24 EUR**

Item no.: 366010
shipping weight: 0.20 kg
Manufacturer: Revell

Product Description

The tapered needle tip opens and closes the paint flow inside the nozzle by moving the control lever back and forth. If you want to convert your spray gun to the Fine nozzle size, please replace the spray jet regulator (art. no. 365968), needle, head (art. no. 365980) and the nozzle (art. no. 365982) together.

We recommend our complete spray jet attachment (head, nozzle and spray jet regulator) for conversion. This spare part is suitable for the Spray Gun Profi IDB 700.

Caution! Not suitable for children under 36 months.
