Product Description

The acrylic paint set Civil Aircraft is the perfect choice for all fans of passenger aircraft. With this set, you get six Aqua Color paints in handy 5 ml bottles that have been specially designed for building models in this thematic area.

The set contains the six most commonly needed colours to create authentic and detailed models of civil aircraft. With these paints you can create a variety of passenger aircraft, ranging from classic propeller planes to modern commercial aircraft.

The paints are all acrylic-based, which means they dry quickly and are easy to mix. They are also water soluble and can be easily cleaned with soap and water.

The Civil Aircraft paint set is perfect for modellers who have a penchant for passenger aircraft and want to meticulously detail their model. Get this set and let your creativity run wild to create detailed models of passenger planes!
