- Detailed bodywork
- Plug-in kit, no gluing necessary
- Rotating wheels
- Authentic interior replica

Scope of delivery:

- Plastic model kit (not assembled)
- Illustrated, multilingual building instructions
- Decals
- Sticker

About the original:

The 2017 Ford GT is a supercar produced by Ford. The GT is characterised by its aerodynamic design and high-performance technology.

One of the main features of the 2017 Ford GT is its futuristic design. The car has an elongated, low silhouette and a wide track that provides stability and control. The GT's body is made of carbon fibre and aluminium, which gives it a light weight and high rigidity. The car also features an active wing system that adjusts according to speed and driving conditions, reducing drag.

Another important feature of the 2017 Ford GT is its powerful powertrain. The car is equipped with a 3.5-litre V6 biturbo engine that produces 656 hp and reaches a maximum torque of 746 Nm. The engine is powered by a 7-speed dual-clutch gearbox that ensures quick and precise gear changes. The car can reach a top speed of 345 km/h and accelerate from 0 to 100 km/h in just 2.8 seconds.

The 2017 Ford GT is also equipped with advanced driver assistance systems to help the driver while driving and reduce the risk of accidents. These include, for example, an adaptive suspension that automatically adjusts to road conditions and a collision warning system.

Caution. Not suitable for children under 8 years of age.

- Scale: 1:24
- Age recommendation: 10+
- Number of parts: 27
- Length: 199 mm
- Width: 83 mm
- Height: 46 mm
