Product Description

The side cutter Profi is the ideal tool for ambitious modellers who need precise and clean cuts when cutting out components. The side cutter is made of particularly hard 440C knife steel, which ensures a very clean cut when cutting out components. The tips are precise and sharp so that you can reach even the smallest corners and edges.

The ergonomically shaped handles made of robust TPU allow relaxed working and safe and comfortable handling. This side cutter is ideal for model makers and hobbyists who have high demands on the precision and quality of their work and is particularly suitable for complex models or detailing work. With the side cutter Profi you have everything you need for precise and clean cuts when cutting out components.
