Product Description

Evergreen is a strategy game for 1-4 players in which you want to create the greenest planet. Plant shoots, let trees grow and gradually forest your planet. Pay attention to the position of the sun and the fertility of the biomes and secure the most points!

Develop your own strategy! Choose cards from the draw according to the biome or the useful ability they give you. But that's not all! Even cards you don't choose are important, because the biomes you don't choose become more fertile and therefore more valuable!

Try to keep your trees close together to get points for the biggest forest... but you also want your trees to gather as much light as possible without shading each other. So pay attention to the position of the sun!

Just like in Evergreen, we believe it's important to take good care of our planet in real life too. That's why all components of the game have been designed to be as sustainable as possible.

Caution. Not suitable for children under 36 months. Legal minimum age: 8 years
