Product Description

Ex-Formula 1 driver Christian Klien raced the McLaren 720S GT3 as part of his part-time programme in the DTM. At the Circuit Zolder in Belgium, at the Nürburgring and at the Dutch Circuit Assen, the Austrian driver sat behind the wheel of the number 15 car for the JP Motorsport team and achieved a strong fifth place in the first classification race in Holland. As a guest entrant, however, neither driver nor team received points. In addition to the DTM, the car also had a taste of the starting line in the GT Open.

Unlike Klien's DTM entry, the Carrera EVOLUTION McLaren 720S GT3 slot car does not run part-time on your Carrera racetrack, but continuously. The front and rear lights and the true-to-the-original finish create a real motorsport atmosphere in your living room. The Carrera car can also be converted to digital using a separate digital decode. Thanks to the advanced and beginner modes, the car can be adapted to your personal driving skills.
