Insert: Wingspan + extensions UV print (GB)

from **29,77 EUR**

Item no.: 366794
shipping weight: 0.50 kg
Manufacturer: e-Raptor

Product Description

Discover the most amazing birds and attract them - the e-Raptor Insert will help you!
e-Raptor Insert with UV print compatible with Wingbeat + Expansions:

- Europe expansion
- Oceania expansion

is the perfect accessory to optimise set-up and flow.

Thanks to this insert, all the game components (including the sleeved cards!) can be kept organised and protected - no more clutter on the table during the game. No more searching for necessary elements during the game because all tiles, dice, player markers etc. can be stored in one place. At the same time, they are easily accessible and do not take up as much space as they would without the insert. Even when the box is closed, the components are still in order and can be used for a new game faster than ever before. In the pictures you can see the proposed component storage. The insert is made of high quality HDF. No glue is required for assembly. The insert includes a foldable dice tower! All game boards and rule books should be stored in the expansion box.

This offer is for the insert only. The game is not included. Please note that the photos may differ slightly in colour from the actual item due to lighting conditions during shooting or monitor display.

Caution. Not suitable for children under 36 months.

- The insert fits in a box with the dimensions: 29.4 x 29.4 x 7.6 cm
- Ideal size for sleeves: 57.5 x 89 mm
- Weight: 1640 g
