Product Description

Not just any game! Putting number cards on rows? So far, so familiar. However, each row takes a different number of cards - and if you have to place the xth card, you cash in the whole row. Fortunately, there is the X-row, which protects you from unpleasant nincompoops. But just one "wrong" card can spoil everything again and then it's ... a set with X! Especially suitable for 2 players!

Attention: not suitable for children under 36 months!

- Age: from 8 years
- Number: 2-4 players
- Duration: approx. 25 minutes
