Product Description

Legacy - Season 2 BLACK - expansion for: Pandemic (DE), ages 14+

71 years ago the world went under

Pandemic Legacy - Season 2 is an epic, cooperative game. You don't play against each other, but the game plays against you. Your actions have an impact on later games: You change the game board and the game components, receive additional material and experience a continuous story.

No two worlds will ever be the same!

The plague came out of nowhere and ravaged the world. Most died within a week. Nothing could stop them. The world was doing its best. It wasn't enough.

For three generations we, the last scattered survivors of mankind, have lived on floating islands that we call refuges. Far away from the epidemic, we can supply the mainland with supplies in order to save the people who have remained there - and thus also us - from being completely defeated.

We keep a network of the largest known cities alive. But this has become more and more difficult in recent years. Several more distant cities have fallen off our grid.

Tomorrow a small group of us will leave to find out how the rest of the world is doing. We don't know what to expect.

Pandemic Legacy - Season 2 is a standalone game; you don't need Pandemic Legacy - Season 1, Pandemie or one of the expansions to play.

The content of the games with the yellow and black boxes is identical.

Attention! Not suitable for children under 36 months. Legal minimum age: 13

- Players: For 2 - 4 players, ages 14+
- Duration: 60 minutes
