Product Description

Shadowrun: Schlagschatten, Hardcover (DE)

What you think is real is torn and torn, and the unreality underneath wells up. Everything you dreamed of All you fear The past returns - dark and distorted. The future flashes in powerful images. You see everything at the same time. You can try to deny it. But it's real. Everything is real. Which also means that nothing is real.

The fabric of reality is tearing apart. The holes are everywhere. Immerse yourself in it.

Schlagschatten is a source volume for Shadowrun 6 that continues the story of the Sixth World after the UCAS nearly fell apart, after the strange events in Detroit and after the blackouts in some mega-sprawls. The earth keeps turning. But the consequences are just as bad as what seeps out of the meta-levels. Schlagschatten also contains an addition to the ADL, in which the incidents in Germany are described in more detail.
