### Product Description

#### Insert - For 7 Wonders (1st Edition)

It is compatible with 7 Wonders 1st Edition, and has space for the Babel, Wonder Pack, Cities, and Leaders expansions. The design provides both efficient storage and improved game play. All of the trays can be utilised during the game. The rules and boards act as a lid on top of the trays.

With the top layer removed you can see the next layer underneath. The four card trays at the bottom were designed to work with quality card sleeves (FFG sleeves were used in testing). You can see underneath the score sheets, the wonder boards stacked on top of each other.

The main token trays are made to be used during game play. Besides there are special trays for the babel tiles and the coin tokens. Please note that the three blank babel tiles that come with the game need to be removed from the box. For the last tokens there are trays, which are specially designed for the small tokens that come with the Babel expansion.

The four card trays are made with easy access slots, and can be used in game to store the three different age decks. There is space for all cards to be sleeved with quality sleeves. As mentioned, all the trays can be used during the game to organise the components and make access by all players easy.

The game rules and boards go on top of the insert, and act as a lid on them. The great project cards and the smaller expansion rulebooks need to be stored as shown (in the pictures) so as to ensure a tight fit with the box lid.

Attention! Not suitable for children under 36 months.

**Note:** Insert designed for the 1st edition game with external box dimensions of 28.5 x 28.5 x 7.6 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
