Product Description

Insert - For Above and Below

This Insert is compatible with Above and Below and the expanded edition exclusive tokens set. The design provides both efficient storage and improved game play. All of the trays can be utilised during the game. The rules and boards act as a lid on top of the trays.

With the top layer removed you can see the player piece trays underneath. You can see at the top of the box two filler trays used to keep all the other trays in position.

There are trays for the goods, cider and potion tokens. The trays are made with separate slots for each type, and can be placed next to the game board during game play. The tray slots are sufficiently large to work also with the wooden resource tokens if you have them.

There are four trays for the coins, villagers, and dice. The empty tray is for storage of the components that come with the Expanded Edition(R) expansion.

Furthermore, there are large card trays which form part of the bottom layer of the insert. All cards can be sleeved, FFG sleeves have been used in testing. The two inverted trays are the filler trays mentioned above.

All the trays can all be used in game to help organise components during the game, as well as speeding up setup and clear away times.

The game boards, rules and encounter book fit in a recess on top of the lower trays. The encounter book goes first, with the boards next and rulebook last. This provides space for the ring binder on the encounter book.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 29.7 x 29.7 x 7.3 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 500 g
- Packaging dimensions: 25.5 x 35.5 x 2.2 cm
- Material: Evacore sheets
