## FS-GAIA - Insert - For Gaia Project

from **16,79 EUR**

Item no.: 336938  
 shipping weight: 0.70 kg  
 Manufacturer: Folded Space

### Product Description

#### Insert - For Gaia Project

The insert is compatible with Gaia Project.

The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

With the top layer removed you can see the second layer of trays underneath. Note the space reserved on the left for the space sector tiles. These are held in place by the other trays around them.

Each faction has their own tray for it's pieces. These can be used in-game to store the components not yet placed on the board. Three similar sized trays also store the scoring tiles, the advanced tech tiles and the QI cubes.

There are trays for the federation tokens and the standard tech and round booster tiles. Note that each type of token/tile has it's own slot to make access easier during game-play.

Furthermore, there are trays for tokens and tiles. The card trays are sized to fit sleeved cards.

As mentioned above, the trays can be used during the game to organise the components and make access by all players easy.

The boards and rules go on top of the trays acting as a lid, allowing the game to be stored vertically. First go the faction boards, followed by the research board in it's wider recess holding it in place. Lastly go the rulebook and scoring board. With everything packed right the lid will close flush with the box.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 30 x 36.5 x 6.8 cm.

This product consists of a flat-pack of 6x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 700 g
- Packaging dimensions: 25.5 x 35.5 x 3.3 cm
- Material: Evacore sheets
