from **11,60 EUR**

Item no.: 336924
shipping weight: 0.40 kg
Manufacturer: Folded Space

Product Description

Insert - For Orleans (DLP and TMG Version)

The insert is compatible with Orleans both the DLP and TMG versions. The design provides both efficient storage and improved game play. The token trays can be utilised during the game and all trays greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

This insert also has a storage option for the Trade & Intrigue expansion.

The insert is arranged in two layers. There is a space at the end of the box for the player bags and scorepad.

As mentioned above all the trays can be used during the game to organise the components and make access by all players easy.

While the insert does not have trays for the Trade & Intrigue expansion, to make the insert more flexible the slots at the bottom of the large trays can be used to store the extra event tiles. You can then place the cards and building tiles with the player bags.

The insert also works well with the TMG version of the game. The tray arrangement is slightly different to fit the smaller box.

When used with this version the lower box height means the lid rises 5 mm when closed.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 7.4 x 32.7 x 22.9 cm. It also works with the retail TMG version sized 6.4 x 29.8 x 22.3 cm.

This product consists of a flat-pack of 3x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 400 g
- Packaging dimensions: 25.5 x 35.5 x 1.7 cm
- Material: Evacore sheets
- Trays: One player pieces tray; one character tiles tray; one building tiles tray; one event tiles tray; two trays for coins and trading station tiles
