### Product Description

Insert - For Isle of Skye and Expansions: Druids, Journeymen

The insert is compatible with Isle of Skye and its expansions Druids and Journeymen.

The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

The insert is arranged in two layers with the bag of landscape tiles at one end of the box.

There are two trays for storing tiles vertically, one for the scoring tiles and one for the castle landscape tiles, the druid tiles and the stone tablets. There are two trays for the gold coins with raised ends to hold tightly the player screen walls. The other two trays are for the player pieces, with one slot for the other tokens from the game.

The druid tile tray is bottom-less at one end to allow space for the slightly larger stone tablets. These fit neatly in the slot at the end of the tray.

As mentioned above the trays can be used during the game to organise the components and make access by all players easy.

The game boards and rules are placed on top of the insert trays acting as a lid. The game can be stored vertically, and transported easily as it fully fills the game box. When packing the box the journeymen progress boards go first, followed by the dolmen from Druids expansion and then the game board. Lastly the rulebooks are placed on top.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 27.5 x 19.1 x 7 cm.

This product consists of a flat-pack of 2x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
