from **12,32 EUR**

Item no.: 336932  
shipping weight: 0.50 kg  
Manufacturer: Folded Space

### Product Description

Insert - For Village and Expansions: Village Inn, Village Port

The insert is compatible with Village and its expansions Village Inn and Village Port.

The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

There is space left between the trays at the bottom for the black and green bags that come with the game.

In the top right corner the player farmyard boards act as lids on tray beneath. The smaller building overlays (the brewery and graveyard tiles) that come with the expansions are also stored there.

With the farmyards and other building overlays removed you can see the last two token trays in the top right corner.

You can also see on the right hand side next to the two card trays the ship tiles stored on their side in a slot for them.

Each player colour is in a separate tray, with space for all five player piece sets. When setting up the game players simply take their colour tray and use it in-game to store their pieces next to their farmyard.

Each of the two trays for the good tiles is made to be longer and thin, so that they can be placed on the board next to the crafts section of the board during the game.

There are trays for the remaining tokens. Again all are designed to be able to be placed around the board in easy access of all players during game play.

One of the game card trays is for the playing-card sized cards, all of which can be sleeved with quality sleeves (FFG sleeves used in testing). The other tray is for the setup tiles.

As mentioned above all the trays can be used during the game to organise the components and make access by all players easy.

There is a recess left for the sea travel board and the inn tile. The card trays are higher at one end so as to stop these boards moving around when the game is transported or stored vertically.

Finally the board and game rules go on top, filling completely the box space. The lid closes flush over everything and allows for vertical storage.

Attention! Not suitable for children under 36 months.

**Note:** It is designed for games with external box dimensions of 29.5 x 29.5 x 7 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 500 g
- Packaging dimensions: 25.5 x 35.5 x 2.2 cm
- Material: Evacore sheets
