Product Description

DSA - map set: The Warring Kingdoms (DE)

The eternal dispute between Nostria and Andergast has been smoldering for almost two millennia, which is why they are also called The Warring Kingdoms. This map set brings the two realms of northwest Aventuria to your gaming table in large format. Whether as a reference for the master or as a handout directly for the players.

In keeping with the regional game aid The Warring Kingdoms, the maps offer a detailed overview of Nostria and Andergast. In addition to the OutGame map, an overview map of the geographical regions and a political map, the map set also contains an atmospheric in-game map of the Warring Kingdoms, as it could be available to your heroes within the game world.

All included Maps have been completely redesigned. The OutGame cards are also laminated to a high quality. In addition to a total of ten maps and city maps, the set contains a double-sided A1 poster with motifs of the play aid.

Warning! Not suitable for children under 36 months.

The set of rules is required!

The map set contains the following cards:

- Detailed map of the Warring Kingdoms (A2)
- In-game map of the Warring Kingdoms (A3)
- Overview map of the geographical regions of the Warring Kingdoms (A3)
- Political map of the Warring Kingdoms (A3)
- City maps of Andergast, Joborn, Nostria, Salza & Salzerhaven and Teshkal as well as a village in the forest wilderness: Hollerdonk
