### Product Description

DSA Adventure - Star Bearer 3: The Swan Song of the Ometheon, paperback (DE), 64 pages

The Swan song of Ometheon Star Bearer III by Dominic Hladek, Nikolai Hoch and Rafael Knop.

Star bearers, that's how those elves are called who wore the star-shaped mark on their shoulder that made them chosen for higher tasks. According to legends, they once directed the fortunes of the fenvar, the high elves, until the armies of the dhaza, the nameless darkness, put an end to their empire. Ometheon, also known as the Sky Tower, is a legendary elemental city of ice. It was built as a masterpiece of the High Elf people, but is also a symbol of their pride and the beginning of the end. The Phileasson expedition once discovered this place, empty and cold. In this adventure, the heroes have the opportunity to explore it at the time of its prime, but at the same time they are on the trail of the fate of Amalaia, who once lived in the Heavenly Tower and whose life took a decisive turn here. Can the heroes find the next piece of the puzzle to Amalaia's fate and get on the trail of her lost soul song? And what role will the shadowy forces play that have haunted the heroes since the beginning of the campaign? This third adventure of the star bearer campaign leads the heroes on their journey on the flight ship Bahalyr into the legendary sky tower, but this is not the only structure that has been erected on this spot, because deep under the ice, on the sea floor, they slumber without light Deep cities of Shakagra.
