Product Description

Foam Tray Set for Zombicide: Dark Side, Board Game Box

As part of the Green Squad you get to deal with a new kind of Xenos in "Dark Side", the Drillers. But it's not just these creatures that make life difficult for you, down there, in the dark tunnels of the drilling rigs on PK-L7 ... But with the right equipment and tactics, there is still a chance for you and your team to survive this nightmare.

And of course with the right Feldherr foam set for your game box, which ensures that everyone arrives safely at the gaming table and you keep the overview.

- The set fits exactly into the original board game box of the "Zombicide: Dark Side" core game by CMON.
- Provides space for all 6 Survivor, 64 Xeno and the two Machine miniatures, plus the complete core box accessories.
- The lid of the board game box protrudes approx. 6 cm.

On top of this come the two foam inserts in which you neatly stow the miniatures and the small cards.

From Miranda to the Driller Tanks to the Driller Abomination, each figure is assigned a custom-fit compartment. Thus the detailed miniatures remain safely in place even when the box is transported.

The soft foam ensures that sensitive parts, such as the weapons of your heroes or claws of the zombies, are well protected from damage. If you paint your figures, you can also be sure that the paint will not be scratched or abraded.

On the second insert you have two card compartments next to the miniatures in which the 128 Mini and Xeno cards are placed. The pockets are provided with finger-wide recesses, which makes it easier for you to remove the stacks. All cards also fit with sleeve.

Finally you put the supplied foam topper on the uppermost tray. All miniatures are securely packed in foam, the game material is neatly stowed away and you are well prepared for the struggle to survive on PK-L7.

Attention! Not suitable for children under 36 months.
