Product Description

Foam Tray Set for Cthulhu: Death May Die (Season 1), Board Game Box

The chant of the cultists resounds and dark rituals conjure up the Elder One. Once again the end of the world is imminent and it is up to your skills to fight the monsters without falling into madness.

Because there are already enough challenges and confusions waiting for you in the game, we have made sure that your miniatures are safely packed and neatly stowed in your "Cthulhu: Death May Die" core game box along with the accessories.

- The set fits exactly into the original board game box for "Cthulhu: Death May Die (Season 1)" by CMON.
- Offers space for all 42 miniatures and the game material (like tokens, dice and cards) from the core game. Additional space for the contents of the Elder Boxes "Cthulhu" and "Hastur".
- Larger components - the 6 Episode Boxes, the Investigator boards, tiles and the Progression Token, as well as the Story Board and Rulebook - are placed upon or under the foam inserts.
- The lid of the board game box protrudes approx. 7-8 cm.
- For more stability during storage and transport, the Flex Cross Band size XL is also included in the set.

The first insert takes care of the large miniatures. Each monster is assigned its own miniature-precise cut compartment here.

From Cthulhu to Hastur to Byakhee - every figure is safely packed in foam. Custom-fit compartments ensure that the miniatures stay safely in place even while transport. This not only protects the sensitive tentacles from damage, but also the colors of painted figures are safe from abrasion and scratches.

The remaining miniatures are placed on the second mat: investigators, cultists and the small monsters.

The large compartment in the middle is reserved for the cards. The larger Stage Cards are placed first, two stacks the size of the Mythos Cards fit on top. The finger-wide recess makes it easier to remove the stacks. The cards also fit here with sleeves.

One compartment remains for the dice and all other compartments help you to sort the tokens. You can arrange them here simply and clearly. This saves time and nerves when setting up the game and you don't have to search for the tokens during the game anymore.

A matching foam topper completes the all-round care of your core game box. On the topper or underneath the foam trays are the larger game components - the 6 Episode Boxes, the Investigator boards, tiles and the Progression Token, as well as the Story Board and Rulebook.

Finally, all miniatures are safely packed, the game material is neatly stowed away and the contents of your box are optimally equipped for transport.

Attention! Not suitable for children under 36 months.
