Product Description

Dream Cabriolet VM-05 - 739 Components

Ugears model dream convertible is modeled after the luxury cars of the 50s. This beautiful kit consists of 739 parts and will later have finished assembled dimensions of 35 x 15.7 x 9 cm. Under normal circumstances, the model will be ready to admire in about 13 hours.

Like all Ugears models, this model dream convertible has many interesting features. When it is in idle mode, it is possible to look at the 8-cylinder V-engine at leisure while it is running. The fully moving cylinders can be easily observed. Furthermore, it is possible to move this car forward and backward, but not in idle mode. The doors and hood can be opened and closed and the wheels can be moved.

Ugears models like this charming convertible from the 50s are very suitable as a gift idea for collectors and of course for self-collecting. If you have any specific questions, we will be happy to help you before you place your order.

Warning! Not for children under 3 years.

- Number of components: 739
- Setup time: 13 hours
- Model size: 35 x 15.7 x 9 cm
