### Product Description

Cup Of Therapy - board game (DE), for 2-6 players, ages 12+

Cup Of Therapy is a new concept that was created in May 2017. The psychotherapy professionals Antti Ervasti and Elina Rehmonen designed this world together with the award-winning and internationally recognized illustrator and graphic designer Matti Pikkujämsä presented gentle way. The illustrations convey encouragement, comfort, and humor. With the help of the products, they want to bring difficult and sensitive topics and situations to the fore. Each Cup Of Therapy drawing is carefully thought out. They offer people an exciting opportunity to deal with these universal, sometimes even challenging topics.

Feelings accompany us every step of the way in our life. They help us solve our problems if we just let them. This game is about expressing your feelings and experiences and understanding yourself and others better. The emotional and thought-provoking illustrations help you to understand your own thoughts better and also to talk about difficult things - even if the right words are sometimes not that easy to find.
