Product Description

Crystal Puzzle: 3D Golden Retriever couple - gold, 44 pieces (DE), ages 14+

Put two beautiful plastic crystal figures piece by piece from the differently shaped individual parts in the form of a small and large golden retriever together. The three-dimensional puzzle is a real challenge for the spatial imagination: The two-dimensional pictures of the instructions have to be converted into three-dimensional objects. Each 3D puzzle piece looks different, making it particularly tricky. Those who are good at puzzling will ultimately be rewarded with high-quality decorative elements. Collect all the puzzles and now you can also discover the large crystal puzzles with even more pieces.
