Product Description

Waste Knights - Board Game, for 1-4 Players, from 14 years (DE Edition)

After the apocalypse and division of Australia, the continent is now also populated by nasty creatures and patrolling cyber creatures. But now your time has come - the time of the Wasteknights...

Waste Knights is a post-apocalyptic adventure game where 1-4 players fight together for survival. Everything takes place in Wasteland - the dystopian wasteland that Australia will have turned into in half a century. The reason for this is global crises, ecological disasters and the machinations of the powerful corporation Cerbero. The Wasteknights try to do one thing above all - survive! Therefore, they try to defy the most diverse creatures, especially other people without any morals.

The new release consists of many adventures, each of which offers a very special experience. The game objective changes in each scenario and the decisions affect the further story. Players can decide between a variety of actions in their turns. Each game is unique due to the captivating narratives, exciting stories and strategic challenges, letting you dive deep into the mysteries of this world.
