Product Description

Classified ads - Frank Kunert's mysterious worlds as a memory game, for 2+ games

Frank Kunert is one of the most original photographers today. His imaginary worlds of images, torn from our childhood, are full of humor, surprise and deeper meaning. Kunert's works, which have been in existence for more than 20 years, are represented in important art collections, and his pictures are known to the general public as postcards and catalogs. Now, with MeterMorphosen, he has selected the 36 most striking motifs from his work in order to develop a memo game with pictures and text cards.

What is special: With the texts from the classifieds, the surreal images become even more uncanny and more detailed when looking at versatile stories. When designing and photographing the miniature worlds, lightness and wit are combined with profoundness. Kunert's lavishly built, glued, painted, staged and photographed worlds of images with a large-format analog camera are dreams and visions. Sometimes tragic, sometimes funny, they show the absurdities of everyday life

Warning! Not suitable for children under 36 months.
