Product Description

MATTE mini board game sleeves in American format 44 x 67 mm - clear (50 sleeves)

Board game cards suffer from frequent shuffling and constant touch, so protecting them should be of great interest to any avid board gamer. These board game cases offer first-class protection and still provide a great mix feeling. With their matt lamination, these covers prevent annoying reflections and thus ensure that the cards are clearly visible from all angles and that there is no eye fatigue while playing. The reinforced thickness of 100 microns gives all cards weight and strength and ensures a first-class appearance. The well-known sleeve color codes from Fantasy Flight Games are continued in this product line. The players recognize the proven color system and find new sizes with new color codes.

- Matte front and back for clear visibility, prevents symptoms of eye fatigue while playing
- prevents bent corners, scratches and damage from mixing
- reinforced thickness, very strong covers
- good mixing feeling
- FFG color codes
- acid-free
- no PVC

Warning! Not suitable for children under 36 months. Danger of suffocation due to small parts that can be swallowed.
