Product Description

Pacific Rails Inc - Board game, for 2-4 players, from 14 Years (DE Edition)

1862: The US Congress decided to build a railway line that will connect the east coast with the west coast for the first time. This epic engineering feat requires advanced construction techniques, human strength and determination. Build an efficient team of workers, plan your route and connect the two coasts as quickly as possible!

Pacific Rails Inc. is a mix of worker placement, engine building and railroad game by Dean Morris. 2 to 4 players, ages 14+, set themselves the goal of connecting the east and west coast as quickly as possible by an uninterrupted railway line.

In order to gradually lay rails from city to city, to build train stations and telegraph stations, you first have to produce resources, hire skilled workers, couple wagons to your railroad and expand them further.

Attention! Not suitable for children under 36 months. Legal minimum age: 14, legal maximum age: 99
