### Product Description

#### Dice Set Macabre (7 pieces)

The power of the underworld. Dice Macabre is an innovative design of 3D dice formed from dozens of tiny skulls. This regular size set contains 7 dice: D4, D6, D8, D10, D00, D12, and D20. The cubes are made of beige resin that has been tinted brown to bring out the details even more. The letters are visible so you can easily paint them if needed.

We've heard you like bones. We like them too, white, free of fleshy sinew (we're vegan friendly, yes!), polished and beautifully carved. And skulls! Skulls are even better. Round and toothy, thick and shiny and roomy - to contain immeasurably dark powers that we can control! We mean, for you, yes....

These artefacts harness the energies of the underworld to do your bidding, yes. Remember, even with the smallest piece of dice macabre, you are one of us, a necromancer, and can challenge the Fated Being. The more exquisite the cube macabre, the more powerful you become, so give them colours if you dare!

Thanks to the almost forgotten knowledge of the underworld, we were able to call upon your collective energies to create this artefact. We stacked the resin skulls on top of each other and formed them into multi-faceted cubes. We sent our faithful skeletons to apply digits, washed them brown and made them docile to give each necromancer the tool they needed. And the details! Look into the empty eyes of each skull, see the darkness within, expect it to stare back at you!

Whether you use it with the avatar of a dark hero, a great magus, a death cleric, a fallen paladin, a savage barbarian, or anything else.... This artefact will still help you, necromancer! The Dice Macabre is able to hold and harness the mystical powers, and we have made them malleable to your will. He is at your disposal and can change fate at your will, yes!

Caution! Not suitable for children under 36 months.
