Product Description

Japanese Dice Set: Blue Star Lotus

A flower that wants to be a star. Spread your arms wide to welcome the grand return of the revamped design of the Japanese inspired dice set! The dice are made of the best material, the numbers are written in Kanji characters and decorated with small flowers. The set contains 7 standard cubes in normal size, the material is white and the painting is purple.

The genesis of the Japanese dice set is strongly influenced by the virtues that come from the old traditions of the samurai and are known in the West mainly in an embellished, romantic version. This is quite sufficient to transfer certain elements into our time and create a vision of the samurai who is not only skilled in combat but also possesses unyielding willpower, relentless self-discipline and a strong value system. According to the Bushido code, these noble warriors were a great example of what every man and woman should strive for in their lives.

The Bushido code is represented by seven main virtues, originally called Gi, Rei, Yu, Meiyō, Jin, Makoto and Chu - translated: Integrity, Respect, Courage, Honour, Compassion, Honesty and Loyalty. We wanted our Japanese dice to reflect these virtues in a non-obvious but meaningful way. We know that our fans have great imaginations, so we'll allow ourselves the following interpretation.

The Blue Star Lotus is a set that embodies the virtues of Bushido by constantly striving for perfection - to become the best version of yourself by constantly practising, which requires training. When you use these dice, you may feel that you are gaining more experience with each successive roll. And this impression is absolutely correct, because each time you perform this specific movement pattern with your hand, you will slowly get better and better at it. Of course, we can't promise you that you will have so much experience that you will roll the dice exactly as you planned every time.... but your moves will certainly become so elegant and confident over time that they will be worthy of an experienced player.

The first appearance of the Japanese dice design caused a real hype among Q Workshop fans and they waited a long time for a new edition in a revised version. To this day, it's a kind of phenomenon that every self-respecting cube collector knows. Now, with a new production method and a new colour scheme, this design can once again reach a wide fan base without diminishing the brilliance of the original. And here it is! We proudly present the Japanese Cube Set: Blue Star Lotus.

Caution! Not suitable for children under 36 months.

- Weight (kg): 0.06
- Material: plastic
- Number of cubes: 7
- Colour of dice: White
- Colour of painting: Purple
