Q WORKSHOP together with Chaosium Inc. produly present this unique metal dice set for Call of Cthulhu Roleplaying Game. These dice can also be used with any game where you need to fight the monsters from Outer Sapces. Watch out for the tentacles, they're everywhere...

The set contains 7 polyhedral dice. The dice are made of tin, engraved and painted in black

Dear still sane Friends, behold the METAL CALL OF CTHULHU DICE SET (7) from the blasphemous Q WORKSHOP. This set is full of polyhedral metal dice, made of tin refined from the melted casts used for the first printed edition of Necronomicon. It is painted black, because we don't have darker paint. The numbers and ornaments are engraved in dice like on tombstones, thus ensuring everlasting quality. They are practically indestructible - and they will last lifelong. They are officially approved by Chaosium and all other cultists of the Great Old Ones. Each die is adorned with sculpted tentacles on the edges and fanged mouths of madness in the corners. There are packed in a beautiful sturdy box. It would be a great gift for all experienced roleplayers and all followers of Cthulhu. The set is like the old good European masterpieces that the Whole World wants to have, collect and buy without hesitation. You should try to be the first buyer, or sheikhs will buy them all.

Let's assume that you have invested in our full metal dice, and like with luxury car, you want to save them for special occasion. It's not wise. The dice are as resilient as Dunwich Nightmare or Avatar of Nyrlathothep. There are not pearls befor swine, but mastercrafted dice for real champions and arch-villains. So don't put them on the shelf, because unused will be a beacon for Great Cthulhu, that will haunt your dreams. Use them for Sanity Check in every moment when your life will touch Something From Mythos. Use them for all Call of Cthulhu campaigns and more. Use them for glory of Great Cthulhu to bring his awakening sooner, because "In his house at R'lyeh dead Cthulhu waits dreaming.". Or remember "That is not certain what's written in rulebooks. And with strange rolls even Cthulhu may die". Our dice will be your luxury, armored with real metal, line of defense from Old Ones or your invitation for all this what is lurking in darkness. Whichever you prefer, dear Hero of Mankind or deep covered Cultist.
