### Product Description

Call of Cthulhu 7th Edition, Dice Set, black & magenta

The flash of outer space. Q WORKSHOP presents The Call of Cthulhu 7th Edition.

Black & magenta Dice Set. Made from the best material, these dice are colored black as the void in the deep cosmos, with the particles of insanity creeping out to reach you, highlighted by the magenta, reminiscing the color out of space. The highest face is adorned with the Elder Sign, ideal for a Lovecraftian setting.

It's time to show you that terror is not always something you can easily describe, point out, frame in your standardized horror portfolio. We all feel the need to know more, to paint the danger in recognizable features, imagine it in front of our eyes, compare it to something, give it a name and purpose, make it distinguishable yet familiar in some way. It helps us overcome the paralyzing feeling of helplessness in front of the unknown. But what if something simply can't be described in a way sufficient for our mind to feel capable of comprehending it?

We at Q Workshop are tirelessly working to create a design that can mesmerize your eyes and softly graze your imagination with a spark of twisted curiosity to dive deeper into the Lovecraftian mythos with the help of the official Call of Cthulhu 7th Edition Dice Set. Many designs have seen the light of day since, and this is one of them.

These dice may seem deceptively sweet and fluffy at the first glance, but the color itself is a reflection of a truly menacing phenomenon - a color out of space. Whoever sees it in full glory, begins a tireless journey into overwhelming madness, doubting his or her own thoughts with not comprehending what is reality, and what's just a pure delusion. You are safe while using these dice, dear Investigators, but we found it necessary for you to understand the real danger behind the Great Old Ones mysteries, or even the slightest sign of their presence.

Whenever someone will notice these dice, they will assume it's just a cute set for girls. You'll prove them wrong once they'll be permitted to see them up close. And then you know their journey is just beginning, while yours brought you knowledge beyond their comprehension already. Guide them through Cthulhu mythos and together find out what lies ahead...

- Immersion — The Elder markings on the dice faces are mesmerizingly whispering about unimaginable phenomena waiting for you to uncover them. Be it for knowledge, or insanity...
- Compatibility — These dice are usable with each Call of Cthulhu edition, and with other games, as the limits are only in your imagination.
- Legibility — No need to strain your eyes to see what's the result of your sanity test. It's always below expectations. But you will see it clearly nonetheless
- Ominosity — Even when you simply hold the dice on your palm and look at them, they seem to draw you deeper. Are the particles of Color out of Space twitching, or is it just your imagination?
- Astonishment — Does magenta color make you wonder if it works with Call of Cthulhu mythos? You don't need to worry anymore. Its ambiguity brings the horror just a step closer to your imagination...
