#### Japanese Dice Set: Deep Night Firefly

Lights in the darkness. Spread your arms wide open to greet the great return of the refurbished design of the Japanese-inspired Dice Set! They are made of the best material, with digits written in Kanji characters and adorned with tiny flowers. The set contains 7 standard pieces of regular size, with the material being black, and painting in golden color.

The genesis of the Japanese Dice Set is strongly influenced by Virtues derived from the old traditions of the Samurai, known in the West mainly in an embellished, romantic version. This is completely sufficient to transfer certain elements to our times, creating a vision of the Samurai as a man not only trained in combat but also having adamant willpower, unrelenting self-discipline, and a strong system of values. According to the Bushido Code, these noble warriors were a great example of what every man and woman should strive to be in their lives.

The Bushido Code is represented by seven major Virtues, originally called Gi, Rei, Yu, Meiyo, Jin, Makoto, and Chu - translated as Integrity, Respect, Courage, Honor, Compassion, Honesty, and Loyalty, respectively. We wanted our Japanese Dice to reflect these Virtues in a non-obvious but eloquent way. We know that our fans are gifted with great imagination, so we allow ourselves the following interpretation.

The Deep Night Firefly set represents the Bushido Code by picking up the gauntlet - facing both internal and external challenges. No matter how dark the night is, no matter how deep is the darkness surrounding us - there is always hope for a new dawn. The light in the dark includes both the stars and the fireflies dancing over the clearing; even the smallest flicker of hope is worth sustaining and gives strength to face adversities. The golden color on a black background personifies Courage and Honor, the virtues we all have, which shine with a warm glow whenever we reach in for them in our clashes with fate - whatever form it takes. The Deep Night Firefly is a set that symbolizes your inner strength, thanks to which you will emerge victorious from every adventure!

The first appearance of the Japanese Dice design caused an absolute craze among Q Workshop fans and waited a long time for a new release in a refurbished version. To this day it is a kind of a phenomenon recognized by every self-respecting dice collector. With a new production method and a new color scheme, this design can now once again reach a wide fan base without diminishing the glamour of the original. And here it is! Behold, as we proudly present to you the Japanese Dice Set: Blue Star Lotus.

- Integrity — From start to finish, we always create our dice with true passion.
- Respect — We faithfully mirrored Kanji characters on dice engravings, keeping them in a calligraphic style to make them more appealing towards Japanese traditions
- Courage — We show you new dice color themes boldly and proudly. Gold painting on the black background imitates lights in the darkness, giving the dice contrast and style.
- Honor — Knowing our mission and responsibility, Japanese dice are of the best quality, made of strong material, and with a clear, durable painting.
