Product Description

Edition 2022 - With this cutting-edge expansion of 15 additional event cards, important political events of the years 2021/2022 are taken up and integrated into the Chancellery game.

The cards fit exactly to the original card deck in the Chancellery game and can be easily mixed with the existing cards.

Among the events are some of historic dimension, such as the storming of the Capitol in Washington or the Ukraine war with its manifold consequences for the whole world. In addition, examples of political success or failure are included, up to and including a momentous political misstep.

The set of 15 cards contains 12 standard cards and 3 intensive cards. Together with the original pack of cards, this makes an expanded total set of 75 event cards with 60 standard and 15 intensive event cards.

Incidentally, the clear box supplied is large enough to hold the whole extended set of 75 event cards and store them attractively.

Scope of delivery:

- 12 standard cards
- 3 intensive cards
