Product Description

Easy to learn, but difficult to master. A wooden cube challenge in a class of its own!

Quixo is a simple, but by no means simple strategy game. The aim of the game is to form a row of five cubes of one's own mark by using a clever sliding principle. But that is exactly what the opponent tries to do, resulting in an exciting tug-of-war.

Also available as a practical mini version for travelling.

Caution: Not suitable for children under 36 months. Danger of suffocation!
