Product Description

Tram 28 is Lisbon's most famous tram. It passes many historical sights and is very popular with both locals and tourists. In this game you move your own trams through Lisbon! In 28, players drive their own trams across Lisbon. The task is to take your passengers to some of the city's most important sights and thereby collect victory points. You also have to manage your tickets well to pick up passengers and move the tram as efficiently as possible. If a fellow player's tram is in the way, you can ring it away and push it out of the way. Optimise the space in your tram, unlock bonuses and connect the sights you visit! Will you be the best driver of the 28?

- Quantity: 2-4
