## Product Description

The Panzer III is a German medium tank from the Second World War. During the production period from 1937 to 1943, it was dynamically developed further. The "J" version was equipped, among other things, with a long-barreled 50 mm KwK 39 L / 60 gun and additional armour. The Bausteinpanzer III has been faithfully reproduced in 1:48 scale. It has movable elements such as: Turret and gun barrel as well as rotating wheels and tracks. The advantage of the set consisting of 292 elements is a solid construction that faithfully reproduces the original forms of its historical prototype. Our miniature tank has been covered with high-quality prints that do not rub off. The Panzer III completes our series of 1:48 scale miniature tanks that will fit into any fan's collection of military history and technology built from Polish COBI bricks.
