from **4,46 EUR**

Item no.: 358857
shipping weight: 0.20 kg
Manufacturer: COBI

Product Description

Melex is a very popular electric vehicle worldwide. It has been manufactured in Mielec in Poland since 1971, a significant part of which is used for export. It is often used in golf courses, airports, historic city centres and zoos, where this is an alternative to using a vehicle with an internal combustion engine.

The licensed model of the Melex 212 electric vehicle was produced entirely by COBI in 1:35 scale from building blocks. It is not only a toy, but also an important part of the collection of every fan of classic and timeless motoring. With movable wheels you can "drive". Durable and non-washable prints are used in the model. A special block with vehicle name, two figures and scenery and accessories are also included.

- 94 high quality components,
- manufactured in the EU by a company with more than 20 years of tradition,
- comply with safety standards for children's products,
- fully compatible with other terminal block brands,
- printed blocks do not deform or fade during play or when exposed to temperature
- clear and intuitive instructions based on drawings and symbols,
- two figures with accessories,
- one block with a printed model and the name of the car

Caution. Not suitable for children under 3 years, as small parts can be swallowed. Choking hazard!
