Product Description

The Maserati Ghibli Hybrid is the first electrified model in the history of Maserati, produced by the Fiat Chrysler Automobiles group. It debuted in 2020. Instead of a typical plug-in hybrid, Italian designers proposed the so-called soft variant with 48-volt electrical system and BLT generator that recovers energy during braking. The car features lower exhaust emissions and good performance, which arouses interest in the automotive market. 1:35 scale model made of COBI building blocks, manufactured under licence by the famous Italian car brand Maserati. It is an ideal product for children and adult car fans. Thanks to specially designed blocks that faithfully reproduce the shape of the body and durable, colourful prints, the vehicles created by COBI look like small works of art. The block model is ideal for display in an adult car fan's collection. Due to the solid structure and the movable wheels on special rubber tyres, it is also perfect as a toy.

- 105 high-quality elements,
- manufactured in the EU by a company with over 20 years of tradition,
- the blocks meet the safety standards for products for children,
- fully compatible with clamping blocks of other brands,
- blocks with imprint do not deform or fade during play or when exposed to temperature,
- clear and intuitive instructions based on drawings and symbols,
- manufactured under the original Maserati licence,
- moving wheels provide great fun with the model,
- Vehicle model: Maserati Ghibli Hybrid
