**BOEING 737 max, model, 340 parts, from 7 years old**

from **24,57 EUR**

Item no.: 358873  
shipping weight: 0.60 kg  
Manufacturer: COBI

## Product Description

Boeing 737 - the world's most popular narrow-body medium-haul passenger aircraft, produced in many versions since 1967. At the same time, it is the most frequently ordered commercial aircraft in the world. More than 15,000 have already been built, an absolute record! In December 2011, Boeing launched the new Boeing 737 MAX programme! The new aircraft generation is based on the older design and features improved aerodynamics and more efficient engines. The first aircraft of this type were delivered to airlines in 2017. One of the first users of the 737 MAX 8 is LOT Polish Airlines, which received its first Boeing 737 MAX 8 on 2 December 2017. The model of the modern Boeing 737-8™ passenger aircraft has been faithfully reproduced from 340 COBI building blocks. Specially designed elements on a scale of 1:110 faithfully reproduce the shape of the original. The aircraft was equipped with rotating wheels and a folding landing gear. Motors with rotating rotors are mounted under the characteristic wings. The set is completed by a black brick stand to which you can attach the included plate with the name of the aircraft! The set uses only permanent prints. No stickers here! The Boeing 737-8™ by COBI is the perfect purchase for all fans of civil aviation, technology and building with blocks. Thanks to true-to-the-original details, it will delight adult collectors, teenagers and young aviation enthusiasts!

- 340 high-quality elements,
  - manufactured in the EU by a company with over 20 years of tradition,
  - meet safety standards for children's products
  - fully compatible with clamp-on blocks of other brands,
  - Blocks with imprint do not deform or fade during play or when exposed to temperature,
