Product Description

The well-known Opel Rekord C Coupé is another strong entry into the automobile series from COBI! A technically very advanced set in large 1:12 scale with a length of 37.5 cm. The Opel Rekord C Coupé sports car was released under the original Opel brand licence. The set was designed with 2,195 elements. The model is characterised by the use of a large number of high-quality prints! Stickers were completely omitted. New elements have been specially designed to meet the needs of such large sets and offer additional functionalities: movable steering wheel with which you can turn the wheels, hinges for opening doors, bodywork and trim elements. There is an engine under the opening bonnet. Numerous details such as handles, lights and clocks form a coherent whole with the perfectly reproduced characteristic shape of this great vehicle.

The model is perfect for collectors and lovers of classic cars. Clear and intuitive instructions and blocks packed in numbered bags ensure that the building process runs smoothly and is also a lot of fun.
