from **23,94 EUR**

Item no.: 358770  
shipping weight: 0.60 kg  
Manufacturer: COBI

## Product Description

The Morane-Saulnier MS.406 is an outstanding French fighter designed in 1938. It was a single-seat low-wing monoplane with a modern design and very good performance. In 1940 it was the backbone of French aviation. Polish pilots also flew it as part of the Polish Air Fleet established in France in 1940. Before the outbreak of war, Poland ordered aircraft of this type. Unfortunately, they were not delivered in time. The aircraft was in the states of many armies and was used by both the Allies and the Axis powers. For the longest time, until 1959, it was used in neutral Switzerland. Use 317 COBI bricks to build a French World War II fighter perfectly reproduced in a 1:32 scale model! This beautiful historical model has been designed with great attention to detail. The building blocks are covered with high-quality prints that will not wear out even with intensive use. The painting of the aircraft refers to Polish pilots from France. Other features of the model include a rotating propeller, a hinged cabin where you can place a pilot with an oxygen mask, retractable landing gear and movable ailerons. The stand included in the set allows for an attractive presentation of the model. The whole thing is rounded off with a sign with the name of the model.

This beautiful aircraft with display is a perfect gift idea for fans of aviation, history and technology. It is sure to satisfy picky collectors and young people fascinated by building blocks. Build history block by block with COBI!

- 317 high quality elements,
- manufactured in the EU by a company with over 20 years of tradition,
- meeting the safety standards for products for children
- fully compatible with clamp-on blocks from other brands,
- Blocks with imprint do not deform or fade during play or when exposed to temperature,
- clear and intuitive instructions based on drawings and symbols,
