Product Description

Gears & Guns is a steampunk expansion for Zombicide: Undead or Alive. It includes an alternative setting for the base game, a world powered by steam! The new survivors and their equipment really heat up the zombies with the new full steam rules. However, there is a danger that the steam will be used up and weapons will have to be refilled first. Discover the new Constructor class and try to get your hands on innovative inventions that can give you incredible advantages against the undead!

The expansion also includes new map sections with dangerous steam engines and new campaign rules to learn never-before-seen skills and carry valuable equipment from one mission to the next. Explore the retro-futuristic city of Bolton's Reach in a campaign that spans ten missions. And beware of the monster of this age: the Steam Monster!

Requires the base game Zombicide: Undead or Alive to play.

Warning: not suitable for children under 36 months!

- Number: 1-6 players
- Age: from 14 years
- Duration: 60+ minutes
