Product Description

This fascinating game is all about skill, patience and ability. A small iron ball has to pass through a predetermined path that is riddled with a multitude of holes. Only those who know how to raise or lower the game level at the right moment with great dexterity will bring their ball safely through the danger zones. In this version of the labyrinth, there are several different ways to guide the ball to the goal. By moving the coloured diamonds (barriers), different paths can be created. In addition, the degree of difficulty can be reduced over several levels by closing some holes (max. 6) with the corresponding cones.

Warning: Caution! Not suitable for children under 3 years due to small parts which may be swallowed! Danger of suffocation.
