Product Description

The Action Tower is an exciting game of skill for the whole family. At the beginning, all the game pieces are built up into a tower. The players take it in turns to take out a piece and put it back on top of the tower. Each player has to prove their skill with strong nerves and steady hands, because with each move the tower becomes more wobbly and unstable. The game ends when the tower collapses. The second game variant provides even more action in the game. Here, the players have to fulfil the tasks given to them by the action piece they have drawn. This guarantees even more excitement in the game. Author: Peter Schurzmann
