from **31,04 EUR**

Item no.: 358828  
shipping weight: 0.60 kg  
Manufacturer: COBI

### Product Description

SAAB JAS 39 Gripen is a modern, lightweight Swedish multi-role fighter manufactured by the aerospace company SAAB in co-production with BAE Systems. The name of the Gripen aircraft refers to the SAAB crest that houses the neck and emphasises the multi-role nature of the aircraft. The acronym JAS was created from words with Swedish meanings: Jakt - hunt, Attack - attack, Spaning - reconnaissance. Gripen is a powerful multi-role machine that can do all these tasks. The configuration of the duck and the wing in the delta configuration makes it possible to develop high speeds. According to the specification, the take-off and landing distance is only 800 m.

The fighter has been produced and developed since 1987. The export version "C" according to the specification of the NATO countries has been produced since 2003. The aircraft have been used by the Czech, Hungarian, Swedish, South African, Thai and Brazilian air forces. In the UK, Gripens are used as training aircraft at the Empire Test Pilots' School.

Build a modern JAS 39 GRIPEN C multi-role fighter aircraft from 465 COBI building blocks in the colours of Czech military aviation, licensed by SAAB. The set has been carefully designed in 1:48 scale. The building blocks are covered with high quality prints. The set includes a special pilot figure that can be placed in a hinged cockpit. The whole set is completed by a block stand with a sign with the name of the plane!

Thanks to the intuitive instructions, the construction is easy and will not cause any problems for less advanced builders. The set will meet the expectations of aviation, military and block enthusiasts. JAS 39 GRIPEN C in Czech painting will look great in your collection! Build up your passion with COBI!

Attention: not suitable for children under 36 months!

- 465 high quality parts
- Made in the EU by a company with over 20 years of tradition
- Meets safety standards for products for children
- Fully compatible with other brands of clamp-on blocks
- Blocks with imprint will not deform or fade during play or when exposed to temperature
