Product Description

Puzzle with motif "Maid" by the street artist Banksy, 1,000 pieces.

This work by the street artist Banksy appeared on a wall in Chalk Farm Road in north London in 2006. It shows a woman dressed as a maid sweeping dirt under the ceiling of a brick wall. The work is said to reflect the Western world's reluctance to address global issues such as poverty or other issues close to Banksy's heart. These red bricks were painted on the white wall of the White Cube gallery. The gallery left the painting for a while, but eventually removed it.

Warning: not suitable for children under 36 months!
