Product Description

Taco Football Women's World Cup brings the crazy reaction game Taco Cat Goat Cheese Pizza in a new design to your World Cup parties. Memorise the five terms and their order as you have to recite them while placing your cards. If the term matches the card, react quickly and strike! The last player to hit his hand on the pile of cards in the middle has lost this round and must pick up all the cards. In addition to the thematic illustrations, new special football-themed cards are waiting for you.

This multilingual special edition for the FIFA Women's World Cup Australia & New Zealand 2023™ is an officially licensed product by FIFA and includes a German game manual.
