Product Description

At the nozzle tip, the paint emerges from the spray gun and is atomised by the air flow. The needle opens and closes the nozzle opening. If you want to convert your spray gun to the Fine nozzle size, please replace the nozzle, needle (art. no. 38191 Student Plus 550, art. no. 38211 Profi Plus 750, Master Class Professional, Master Class Flexible and Master Class Vario) and spray jet regulator (art. no. 38041) together.
