## Product Description

Race debut for driver and car

Schubert Motorsport entered two brand new BMW M4 GT3s in the 2022 GT Masters. The number 10 car was driven by 19-year-old Niklas Krütten from Trier and 24-year-old Briton Ben Green, both making their GT Masters debut in 2022. With two victories, two pole positions and two fastest race laps, it was a successful debut for the drivers and the new car. Eye-catcher for home

At home on the Carrera racetrack, the true-to-the-original car is a real eye-catcher, and not just because of its stylish black look with green accents. The individually codable and digitally controllable model, which is equipped with front, rear and brake lights, is predestined for full throttle!

- BMW M4 GT3 "Schubert Motorsport, No.10
- DIGITAL 124
- Front, rear and brake lights
- Scale 1:24
- From 10 years
