shipping weight: 0.50 kg
Manufacturer: Carrera

Product Description

Legendary racing car returns to the track

The Carrera EVOLUTION Porsche Kremer 935 K3 "No. 54" is the miniature version of the legendary racing car in which Klaus Ludwig won the DRM Championship in 1979. In addition, the innovative Porsche model won the one-make world championship a full four years in a row, making the Porsche 935 one of the most successful near-series racing cars in history. The original car sits at a record-breaking 680 hp and was driven by racing legend Klaus Ludwig, affectionately known as "King Ludwig" by his fans. To this day, he is considered Germany's most successful touring car driver.

A racy racing machine for the home

The Porsche is absolutely true to detail and knows how to convince you in light blue. In addition, the slot car has front and rear lights that will illuminate even the darkest corner of your car racetrack. The vehicle can also be converted to digital using a separate digital decoder. Enjoy authentic racing feeling on your own racetrack.
